

Breathe Easy *Early*

An ORBEX Study of Asthma & Wheezing

Researchers at the University of Arizona Asthma & Airway Disease Research Center and Phoenix Children's Hospital, are conducting a study called **ORBEX**, to see if taking an **ORal Bacterial Extract** can prevent or reduce wheezing illnesses in young children.

Eligible participants will be enrolled between **5 to 17 months old** and receive physical exams, study medications, small toys and monetary compensation for each completed
